YELLOW JACK RETREATING.

JACKSONVILLE IS WINNING HER FIGHT AGAINST THE FEVER.

Cool and Fair Weather Brings Hope to the Stricken City-A Falling Off in the Number of New Cases—Correspondent King-Hall Recuperating Rapidly—Quarantine

ISPECIAL TO THE EVENING WORLD.

JACKSONVILLE, Fla., Sept. 29.-The fair and cool weather continues, and there is courage in every face one sees. The weather is favorable to those who are sick, and those who are well are invigorated by it, while the microbes seem to be taking a rest.

There were only eighty-five new cases yesterday, and from present indications there will be fewer still to-day, while up to this writing your correspondent has not learned of a single death. King-Hall, the redoubtable worker for THE

World, is reported by Dr. Sollace Mitchell as recuperating rapidly. He has passed the crisis, and it no unforeseen drawback intervenes he will be on his feet again in a few days. No patient since the epidemic first made its appearance has been the object of such general solicitude.

The loss incurred by this city through the almost complete closing up of its business houses for the past six weeks will be something enormous, though the figures cannot be approximated now. Many of the storekeepers and clerks have had the fever and are now recovering, and these will reopen their places of business in a few days proba-bly, though there is almost nobody to buy

bly, though there is almost nobody to buy yet.

Meantime there is a feeling of returning confidence in neighboring cities, Quarantine regulations are being relaxed or removed, and the panic is subsiding.

There are many families here from abroad, caught here when the epidemic began and detained here. Now they are beginning to clamor for liberation, and the question of how to do it is now the most vexatious one of the hour.

Among the saddest cases of the epidemic are those of Dr. L. T. Eddy, of Louisville, and George Hollenbeck, the telegrapher from Memphis, These brave men volunteered their services, having passed through the Memphis acourge in 1878. They thought they were fever proof, but Dr. Eddy died yesterday and Hollenbeck cannot hive twenty-four hours.

The recoveries are very rapid in such weather as we are having, and 100 received their certificates of discharge yesterday, and more than that will be out to-day.

Gainesville's only new case is a man who did the funication of infected libers.

Fernandina reports two new cases to-day, and Jackson's report is favorable.

THE RIOTERS MAKE THREATS.

The Italian Railroad Gang Still Fighting the Citizens of Quebec.

[SPECIAL TO THE WORLD.] MONTREAL, Sept. 28. - Despatches from Sherbrooke to-night are not reassuring as to the outcome of the riots. Telegraphic communication cannot be had from Sawyerville, as the rioters cut the wires. The last order was that the railroad. six miles each side of Sawyerville be patrolled militia came into contact. A charge with fixed bayonets was made and the rioters fied. There is an abnormal tear of the Italians among the inhabitants, however, and stalwart Scotch Canadians are afraid to stir out of their homes at night. The rioters last night held a meeting in the market-place, as which it was agreed that rioting was not the best way to have matters adjusted, but a resolution was finally reached that anything might be done which would injure the railroad company that owed them money. To-morrow was the day of grace set and a resolution was passed that if their grievances were not remedied wholesale incendiarism and destruction would follow. Six or seven dynamite cartridges were exploded by a passing train, and now trains over that line here are devoid of passengers.

A gang of laborers had been engaged to lay the rails torn up yesterday by the rioters, when 300 Italians interfered. A detachment of the Fifty-eighth Regiment charged the rioters with the bayonet and twenty were captured, a box car serving as a Black Hole until a margistrate can be brought. militia came into contact. andidate Morton Was the First Caller at the Fifth Avenue and the Only One Redresses Are to Be Brief, but the Procesalon Is Expected to Be Loug.

The lack of formality which distinguished the arrival of Mr. Blaine in the city was continued this morning by the few callers who visited him.

Perhaps his manner of dodging the crowd that awaited him in the corridors of the Fifth Avenue Hotel last night may have had an effect in checking enthusiasm, but he remained quietly in his room all this morning, undisturbed by any callers, until a few minutes after 9 o'clock.

At that time Mr. Levi P. Morton appeared and was shown to the great man's room, where he remained for nearly an hour. In the mean time the callers began to ar-

rive, and cards were sent up to Mr. Blaine ; but, as he was not yet out of bed, he would receive no one, with the exception of Mr. Morton.

Among those who sent in their cards were Col. G. R. Davis, of the Republican National Committee; Gen. Cassius Goodloe, Gen. J. E. Hall, and ex-Gov. H. C. War-mouth, of Ohio. Little knots of politicians gathered in the

corridors discussing the situation and the coming meeting at the Polo Grounds.

When Mr. Morton came down from Mr. Blaine's room several hats were raised in salute, to which Mr. Morton responded with an amiable smile and nod as he disappeared n the direction of the National Con

A Rumor that the Fund's Lawyer Has Gone to See Him.

Inspector Byrnes Has Not Even Been Notified of the Robbery.

William R. Foster, jr., the absconding attorney of the Produce Exchange, has been located.

There is little doubt but that he is in

Canada.

President Alex E. Orr, of the Exchange, says that he was seen at the Grand Central Station about the time for the departure of the Montreal Express, Wednesday evening. It is certain that a Pinkerton detective is there looking for him. From the fact that Horace E. Deming, who has been retained as counsel for the Trustees of the Gratuity Fund, left the city last evening, it is surmised that Foster has been found and Mr. Deming has gone to see him, with the idea of effecting a settlement and the return of the \$193,000 which Foster obtained by his forgeries of six years.

Private detectives and even rural constables were taken into their confidence, while the regular detective force was ignored. Of course Foster has not been arrested yet."

The feeling among the police force is very great over this slight on the part of the Produce Exchange, taken in view of the fact that when the Russian-bath establishment in their building was victimized Inspector Byrnes run down and arrested the thieving and forging officer and uncarthed the frauds in less than a week. Some of the higher officials venture the opinion that there is no desire to have Foster arrested if his father can be induced to pay up.

MISS LULU'S HISTORY.

MISS LULU'S HISTORY.

Thomas F. Wentworth, Foster's law partner, said to-day in regard to Foster's adopted daughter:

"Miss Lulu is of a good Florida family. Her mother, Mme. Beloite is a resident of Philadelphia, and is now living at Atlantic City. She is in delicate health.

"It was not Mr. Foster's sister, but Lulu's, who died in Paris, and that was but a few weeks ago. She was the wife of Mr. Zeigler, a well-known artist, a member of one of the large singing societies of this city."

"The boy Willie who visited her at Bayport and was known as her brother is in fact her twin brother. At the time of his visits to Bayport he was attending school in New Jersey and is now in the West, employed by a firm of civil engineers."

IS THE GIBL IN THE CITY ? "When Will Foster left Bayport Tuesday night," continued Mr. Wentworth, "he told Lulu to visit some friends in New York until next week, as he would be away from home. When she left her home Wednesday she was coming to this city, where she now is at the residence of friends.

where she now is at the residence of friends.

'She did not learn of the charges against her adopted father until yesterday morning, and is almost heartbroken."

Mr. Wentworth refused to disclose the whereabouts of the girl.

He said that there is absolutely nothing in the story of scandal involving the girl at the time of her residence in Washington Heights, with Mr. Foster.

Mr. Foster adopted her just prior to leaving the Heights and removing to Far Rockaway.

way. ATTACHMENTS AGAINST HIS PROPERTY.

The attachments which were issued at the suit of the Gratuity Fund against Foster's property were levied upon his effects in the law office where the safe had been scaled by the Sheriff's officers.

Foster banked with the Produce Exchange Bank, the Chatham Bank and the Bowery National Bank. His balances in these banks, the amount of which could not be asset. the amount of which could not be ascer tained, were also attached in this suit. An attachment was also issued against the

Bayport property.

Mr. Wentworth said that he always understood that this property was in his partner's name, having been purchased of a widow residing in Bayport. He was surprised to learn that there is no record of a transfer to Foster in the County Clerk's office of Suffolk

that his will is drawn in her favor, Mr. Went-worth says.

The absconder's partner resents the stories of Foster's irregularities. He says that he has been intimate with him since 1869, and that he knows that Will, as he familiarly calls him, never knew how to play poker, and that bill-iards even were a mystery to him. He said, too, that he is willing to stake his all that no man ever saw Foster intoxicated during all the time he has known him.

FOSTER'S LIFE AT WASHINGTON HEIGHTS. The Washington Heights House which Foster occupied previous to his removal to Bayport, is located at 887 St Nicholas avenue. It is a two-story red brick, with a slanting slate roof, and the pretty little plazza in front is adorned with heavy potted plants. On both sides of the street he was surrounded by the oldest families of Washington Heights. There are the Whitmans, the Griffins, Swifts, Baches and many others who have made this quiet locality their abode.

She added that the neighbors were surprised that he chose such a neighborhood in which to live if he wanted to keep horses, for he had to go way down to One Hundred and

which to live if he wanted to keep horses, for be had to go way down to One Hundred and Fifty-first street to get his turnouts. They were very elegant, too, and this also at-tracted attention.

The lady had two daughters, but didn't allow them to associate with Lulu, for she suspected that everything was not right.

The neighbors felt sorry for the girl, as they thought she was restrained by Foster.

SAID SHE WENT TO A CONVENT. Soon after the Fosters moved into the house the girl went away and was absent about three months. When she returned she said that she had been boarding at the Con-vent of the Sacred Heart, which was burned

The pair moved away very suddenly, without giving any one any reason for so doing, and it had been whispered that a threat had been made that unless he did go he would be

exposed.
When the reporter called at the Otten dorfer mansion, corner of One Hundred and Thirty-sixth street and the Boulevard, where a section of the convent is now located, he was met by the porteress, who invited him

When asked if Lulu Foster or Lulu Beloite had been a scholar in the old convent, she answered that the girl had not. She has kept the register for sixteen years and can remember every scholar in that time. To make sure, however, she examined the record for the last five years and found she was correct.

Whether Lulu attended the convent or not, is an open question. She may have been is an open question. She may have been there under an assumed name.

The forger was evidently more composed and at his ease than on any of his previous appearances in public. He had lost the skulking, shame-faced look that he had worn on those occasions, and although the room was crowded with people he held himself erect and looked around at the faces before him without flinching.

It was said that he had been doctored up with bromide, and he certainly appeared to be in improved health and spirits. Assistant District-Attorney Hartman and Solomon Hanford were present to look after the interests of the prosecution.

When Judge White, referring to the adjournment of last Thursday, asked the prisoner if he had obtained counsel and was ready to proceed, Bedell rose from his chair and said:

"If it please Your Honor, I have not yet secured counsel, but I am ready to plead now if I may be permitted to read the complaint and know what its purport is."

After taking the document and reading it over carefully he solemnly handed it back to the magistrate.

Without any further parleying Justice White announced that he would adjourn the examination till next Wednesday.

Assistant District-Attorney Hartman said there was no defect whatever in the complaint, except that it might be made stronger, and added that it was only; a pretext on the part of Bedell to gain further delay. The latter thought that if he should plead to-day, his plea would be used as a handle by Lawyer Howe to shield his clients, the policy dealers, in whose shop Bedell claims to have lost most of his money.

MASQUERADING AS POLICEMEN. East Side Saloou-Keepers Led to Buy Bogu

"We're policemen," said three stalwart young men who entered John Spanskle's saloon at 417 Fifth street tast night.

"Well, what can I do for you?" asked the well, what can I do for you?" asked the saloon-keeper, noticing by their actions that they lad something on their minds.

They said that they were appointed a committee by the policemen ef New York to go around among saloon-keepers and sell them ball tickets. Five was the proper amount to take, and they were \$1 apiece.

The tickets were for a calico dress ball, to the sale of the sale of

Charles Kirschner's saloon, at 329 Stanton street, was next on the list of the swindlers, but that gentleman was so often victimized in a similar manner that when he seized a club they fled from his place.

They intended to make John Dixon, who keeps a saloon in Lewis and Fourth streets, their last victim last night, but Dixon seized one of the swindlers and shouted for help.

Detectives Brennan and McCormack, of the Union Market Station, responded, and the Union Market Station, responded, and the swindler was taken into custody. He described himself as John Neven, aged thirty, of 17 First street.

Police Capt. William McLaughlin and his vard detectives, Oates and Nugent, araigned a stout, well-fed looking German woman before Justice White in the Tombs Police Court this morning on a charge of swindling a number of people out of sums of

money ranging from \$5 to \$25. The prisoner gave her name as Susan Smidt, aged fifty-five, and with a sorrowful hake of the head declared she had "no

The police knew her better by the name of Susan Myers. She has been swindling people all over the country for fifteen years past. Several times she has been arrested and imprisoned, but always received slight senences.

There is something of a mystery about the woman. She claims to have been married to a re-

spectable man, who she says is dead, and that while he was alive she lived an honest life. She says that she took to swindling people for a living after her husband died. It is known that she has a son, a respect. able young married man in this city. For a long time he did not know of his mother's evil ways, but after she had been arrested

once he learned the truth. The disgrace nearly killed him. When she was released from prison he tried to reform her, but find-ing his best efforts unsuccessful, he disowned her and put her from his home. That was her and put her from his home. That was several years ago.

Since then she has served a term of two years in the Kings County Penitentiary, but the New York police had heard nothing of her for three years until about two weeks ago. Then Capt McLaughlin began to receive one or two complaints daily from business men in his precinct who had been swindled by an oily-tongued old German woman.

ness men in his precinct who had been swindled by an oily-tongued old German woman.

The first case that came to the Captain's ears was that of William Thompson, a coffee broker at 96 Front street. The old woman went into his office about three weeks ago crying bitterly. She seemed bent with age.

The soiled and ragged handserehief that had once been white did not hide the disordered gray hair that fell in scanty ringlets about the old woman's neck. She wore only a ragged quilted skirt for a dress, and her shoes were not fit to wear.

Her appearance alone excited Mr. Thompson's pity. Kindly he asked her what he could do for her.

After an extra sob or two she told him that her only son lay dead in the Hospital for Incurables. His body would be interred in Potter's Field if she could not raise money enough to bury him decently.

"I know you are a charitable man," she monned. You look good and kind, and besides I was told to apply to you by Mr. Dilts." As she said this she produced a visiting card of the Rev. A. Reed Dilts, the pastor of the church in Plainfield, N. J., which Mr. Thompson attends.

have set all suspicion at rest, so he gave the poor woman \$20, and the addresses of several of his friends, and let her go away. When he saw his pastor next time he spoke to him about the unfortunate woman, but Mr. Dilts did not know her and had never heard of her. Mr. Thompson got angry and next day reported the case to Capt. McLaughlin.

In the station-house he met Charles A. Haines, a stock broker at \$1 New street, who was "worked" the same way by the poor old woman. He lost \$15. He also live's in Plainfield, and it was Dr. Dilts's card that opened his purse so readily also.

Since then about twenty-eight cases were reported at the station-house.

Detectives Oates and Nugent knew the woman years ago and recognized her immediately.

They brought her to the station-house, where she confessed her guilt, and said that altogether, she had swindled over six hundred people in the last few years. In court this morning the following complaints were made against her:

S. I. Haines, of 202 West Forty third. made against her:
S. L. Haines, of 202 West Forty-third
street, lost \$10 July 25 hast.
John Morris, of 43 and 45 Worth street,
